Re: COVID-19 Booster Dose Interval Clarification

Dear Colleagues:

Please refer to **Table 1 COVID-19 Booster Dose Intervals** for clarification of past communications, especially regarding travel doses.

Table 1: COVID-19 Booster Dose Intervals

Population	**Doses in Primary Series**	**Interval to 1st Booster** (mRNA preferred)	**Interval to 2nd Booster** (mRNA preferred)
18+ living in Long Term care facilities, Personal Care Homes or other congregate living settings that provide care for seniors	2	4 months	4 months
50+ who received Janssen vaccine	1	2 months	4 months
18-49 who received Janssen vaccine	1	2 months	Currently not available
50+ who received viral vector or mixed doses followed by mRNA doses for travel	varies	4 month	4 months regardless of doses previously received
18–49 years old who received viral vector or mixed doses followed by mRNA doses for travel	varies	4 month	Currently not available
50+ healthy or clinically vulnerable individuals	2	4 months	4 months
12-49 years old healthy or clinically vulnerable individuals	2	4 month	Currently not available
50+ moderately to severely immune compromised individuals	3	3 months	4 months
12-49 years old moderately to severely immune compromised individuals	3	3 months	Currently not available

Sincerely,

Dr. Saqib Shahab
Chief Medical Health Officer
